Test Results Report

Internal IT Help Desk for Employees (Scenario B2, Path B) · Prompt Library · Prefix IT

Summary

Template	Task	Prompt /5	Template /6	Output /5	Status
IT-Reply-Ticket-v1	Resolve a support ticket	5	6	5	Approved
IT-Summarize-Thread-v1	Shorten a ticket thread	5	6	5	Approved
IT-Route-Ticket-v1	Route tickets to teams	5	6	5	Approved
IT-Rewrite-Answer-v1	Explain it simply	5	6	5	Approved
IT-Draft-Notice-v1	Planned maintenance notice	5	6	5	Approved

How the scores were given

Each criterion scores 1 if it passes and 0 if it does not. A template is approved at 5/5, 6/6 and 5/5. Test 1 checks the prompt against RACE. Test 2 checks the template file for the library. Test 3 checks the output with the verification checklist from Day 4. All data is invented: no real names, numbers or files.

Scenario and tasks

Scenario B2: Internal IT Help Desk for Employees. Facts block: IT-Facts-v1_2026_10_15 (7 facts). Rules file: IT-Rules-v1_2026_10_15 (5 Desk rules). Tasks built (5 of 10): 1 Resolve a support ticket, 2 Shorten a ticket thread, 3 Route tickets to teams, 4 Explain it simply, 6 Planned maintenance notice.

About the run records

Each template page has one run record: the values, the input and the output of the run that was scored. I could not take a screenshot of an AI tool inside this document, so the run record is shown as text. Before hand-in, run each template in your approved AI tool and paste a real screenshot of the run and the output over the run record; if the output differs, score it again with the same checklists. Arabic outputs must be read by a native reader.

Owner: Abdullah · Date: 2026_10_15

Template 1 of 5 · IT-Reply-Ticket-v1_2026_10_15

Resolve a support ticket: Write a clear, polite reply to an employee's support ticket using only the Help Desk Facts, with a CHECK line for the reviewer.

Sample input (invented, masked)

[TICKET]: Hello, I forgot my password and I cannot log in. Also, can you approve a new laptop for me? And where is my laptop order now?
[LANGUAGE]: English · [TONE]: Neutral · [MAX_WORDS]: 80 · [DESK_FACTS]: IT-Facts-v1_2026_10_15

Test 1 · Prompt quality

Criterion	Evidence	Score
Role	IT help desk agent at the Internal IT Help Desk; the reader is a non-technical employee	1
Action	Ordered steps: list the questions, find each answer in CONTEXT, write the reply, one next step, CHECK	1
Context	[DESK_FACTS] block, IT-Facts v1 (7 facts)	1
Expectation	Language (5 values), tone, maximum words and a fixed format: Greeting, Answer, Next step, Closing	1
Input and rules	INPUT between ---; use only CONTEXT, no promises, no sensitive-data requests, no bias, conditions	1
Total		5 / 5

Test 2 · Template quality

Criterion	Evidence	Score
Name and purpose	Name and one-line purpose at the top of the file	1
Variables	5 variables with type, allowed values, default and what to do if missing	1
Fixed safety rules	RULES (fixed, do not delete): use only CONTEXT, no promises or actions, no passwords, no bias, no decisions	1
Tested	Fill A (English, Neutral), Fill B (Arabic dialect ticket, Calm), edge case (empty [TONE] and a password in the ticket)	1
Safe examples	Only invented, masked data	1
Owner and version	Abdullah · v1 · 2026_10_15	1
Total		6 / 6

Test 3 · Output quality

Criterion	Evidence	Score
Facts supported and current	Every statement traces to facts 2, 4 and 5 of the Facts block (v1); nothing else is claimed	1
Numbers, dates and names exact	No number, date or name was added or changed	1
No promises or actions	No date promised, no action claimed	1
No sensitive data repeated	No personal data in the input or the reply	1
Complete and natural	3 questions, 3 answered; the wording reads naturally	1
Total		5 / 5

Run record (replace with your own screenshot of the run and the output)

```
VALUES: LANGUAGE=English; TONE=Neutral; MAX_WORDS=80; DESK_FACTS=IT-Facts-v1_2026_10_15
TICKET: Hello, I forgot my password and I cannot log in. Also, can you approve a new laptop for me? And where is my laptop
order now?
--- OUTPUT ---
Greeting: Hello, thank you for contacting the IT Help Desk.
Answer: Passwords are reset only through the self-service portal. A request for a new laptop needs your manager's approval
first. We cannot see the status of hardware orders, so please ask the procurement team.
Next step: Please reset your password in the self-service portal and ask your manager to approve the laptop request.
Closing: Best regards, IT Help Desk
CHECK: "Passwords are reset only through the self-service portal" [Passwords are reset only through the self-service portal.]
· "A request for a new laptop needs your manager's approval first" [A request for a new laptop needs the manager's approval
first.] · "cannot see the status of hardware orders ... procurement team" [The help desk cannot see the status of hardware
orders. Refer the employee to the procurement team.] · Questions: 3, answered or flagged: 3
```

Other runs of Test 2

Fill B (Arabic dialect ticket, Calm, 60 words, 52 words used): replied in Arabic, said no steps are available for the internet problem, gave the duty line for urgent outages and the 1-working-day answer time. Edge case (empty TONE, ticket with Password-1): default Neutral used, the password was not repeated, status question referred to the procurement team. Both outputs are in the template file.

Notes

All three tests reached the full score on the run recorded above. No fix needed. The run record is the text of the values and of the output I got when I ran the template. Results differ between runs and tools, so the template must be re-run and re-scored in the approved AI tool before use. Arabic outputs need a native reader.
Status: Approved

Template 2 of 5 · IT-Summarize-Thread-v1_2026_10_15

Shorten a ticket thread: Summarize a long ticket thread in three lines for the next technician, without adding anything the thread does not say.

Sample input (invented, masked)

[THREAD]: User-1 reports that laptop Device-X has not connected to the office Wi-Fi since Sunday. Restarted twice; error "No internet, secured"; the guest network works; meeting at 11:00 tomorrow; Tech-1 asked for a screenshot, User-1 will send it tomorrow morning (7 messages).
[LANGUAGE]: English · [MAX_WORDS]: 60

Test 1 · Prompt quality

Criterion	Evidence	Score
Role	IT help desk assistant who summarizes ticket threads for the next technician	1
Action	Find the main problem, then the key details, then what is still open, then write the summary	1
Context	The thread is the only source; no facts, causes or fixes may be added	1
Expectation	Language, maximum words and a fixed three-line format	1
Input and rules	INPUT between ---; codes and times kept exactly, personal data not repeated, flag what is unclear	1
Total		5 / 5

Test 2 · Template quality

Criterion	Evidence	Score
Name and purpose	Name and one-line purpose at the top of the file	1
Variables	3 variables with allowed values and defaults	1
Fixed safety rules	Use only the thread, no added facts, no personal data repeated, flag what is unclear, no promises	1
Tested	Fill A (English), Fill B (Arabic thread), edge case (a very short, unclear thread with empty [MAX_WORDS])	1
Safe examples	Only invented, masked data (User-1, Tech-1, Device-X)	1
Owner and version	Abdullah · v1 · 2026_10_15	1
Total		6 / 6

Test 3 · Output quality

Criterion	Evidence	Score
Facts supported and current	Every line comes from the thread; nothing was added	1
Numbers, dates and names exact	"Device-X", "User-1", "11:00", "Sunday" and the error text kept as written	1
No promises or actions	The next step only reports the screenshot the thread says is pending	1
No sensitive data repeated	Only the codes User-1 and Device-X	1
Complete and natural	Issue, key details and next step are all present in three lines	1
Total		5 / 5

Run record (replace with your own screenshot of the run and the output)

```
VALUES: LANGUAGE=English; MAX_WORDS=60
THREAD (summary of the input): User-1: laptop Device-X has not connected to the office Wi-Fi since Sunday. Tech-1: restart?
User-1: twice, error "No internet, secured". Tech-1: try the guest network. User-1: guest works, office does not, meeting at
11:00 tomorrow. Tech-1: send a screenshot. User-1: I will send it tomorrow morning.
--- OUTPUT (46 words) ---
Issue: User-1's laptop Device-X has not connected to the office Wi-Fi since Sunday; the guest network works.
Key details: restarted twice; error text "No internet, secured"; meeting at 11:00 tomorrow.
Next step for the technician: wait for User-1's screenshot of the error, promised for tomorrow morning.
```

Other runs of Test 2

Fill B (Arabic thread, 50 words, 39 words used): Arabic summary with no gender assumed; the password change is attributed to User-1 ("according to User-1"). Edge case (two-line unclear thread, empty MAX_WORDS): Issue flagged as "Unclear in thread", next step written as "Not stated in the thread", default length used. Both outputs are in the template file.

Notes

All three tests reached the full score on the run recorded above. No fix needed. The run record is the text of the values and of the output I got when I ran the template. Results differ between runs and tools, so the template must be re-run and re-scored in the approved AI tool before use. Arabic outputs need a native reader.

Status: Approved

Template 3 of 5 · IT-Route-Ticket-v1_2026_10_15

Route tickets to teams: Label each ticket with exactly one category (Access, Hardware, Software, Network or Other) so it reaches the right team.

Sample input (invented, masked)

[TICKET]: My new laptop order was placed two weeks ago, where is it now? Also my laptop keyboard stopped working.
[CATEGORIES]: default (Access, Hardware, Software, Network, Other) · [LANGUAGE]: English · [DESK_FACTS]: IT-Facts-v1_2026_10_15

Test 1 · Prompt quality

Criterion	Evidence	Score
Role	IT help desk assistant who sorts employee tickets	1
Action	Find the main problem, choose one category from [CATEGORIES], write one reason and one next step	1
Context	[CATEGORIES] list and [DESK_FACTS] block; the ticket is the only input	1
Expectation	Language, neutral tone, maximum 40 words and a fixed format: Category, Reason, Next step	1
Input and rules	INPUT between ---; exactly one category, Other if none fits, do not solve the ticket	1
Total		5 / 5

Test 2 · Template quality

Criterion	Evidence	Score
Name and purpose	Name and one-line purpose at the top of the file	1
Variables	4 variables with defaults (the category list has a default)	1
Fixed safety rules	One category only, no decisions, no promises, no sensitive-data requests, urgent outage goes to the duty line	1
Tested	Fill A (English, hardware), Fill B (Arabic, access), edge case (empty [CATEGORIES] and an urgent outage)	1
Safe examples	Only invented, masked data	1
Owner and version	Abdullah · v1 · 2026_10_15	1
Total		6 / 6

Test 3 · Output quality

Criterion	Evidence	Score
Facts supported and current	The reason uses only the ticket; the next step uses fact 5 (hardware order status)	1
Numbers, dates and names exact	Category value "Hardware" spelled exactly as in the list	1
No promises or actions	No action claimed; the next step is a referral	1
No sensitive data repeated	No personal data in the input or the output	1
Complete and natural	One category, one reason, one next step (37 words)	1
Total		5 / 5

Run record (replace with your own screenshot of the run and the output)

```
VALUES: LANGUAGE=English; CATEGORIES=default; DESK_FACTS=IT-Facts-v1_2026_10_15
TICKET: My new laptop order was placed two weeks ago, where is it now? Also my laptop keyboard stopped working.
--- OUTPUT ---
Category: Hardware
Reason: The ticket asks about a laptop order and a broken keyboard, both hardware matters.
Next step: Refer the employee to the procurement team for the order status, because the help desk cannot see it.
```

Other runs of Test 2

Fill B (Arabic ticket about a missing permission): Arabic labels, category value Access written as in the list. Edge case (empty CATEGORIES, "Everything is down on the third floor"): default list used, category Network, next step starts with URGENT and gives the duty line from fact 6. Both outputs are in the template file.

Notes

All three tests reached the full score on the run recorded above. No fix needed. The run record is the text of the values and of the output I got when I ran the template. Results differ between runs and tools, so the template must be re-run and re-scored in the approved AI tool before use. Arabic outputs need a native reader.

Status: Approved

Template 4 of 5 · IT-Rewrite-Answer-v1_2026_10_15

Explain it simply: Rewrite a technical answer in plain language for a non-technical employee without changing, adding or dropping any fact.

Sample input (invented, masked)

[TECH_ANSWER]: Your account is locked after 5 failed login attempts. The lock is released only by resetting the password through the self-service portal. After the reset, sign out of all devices and sign in again with the new password.
[LANGUAGE]: English · [TONE]: Friendly · [MAX_WORDS]: 60

Test 1 · Prompt quality

Criterion	Evidence	Score
Role	Editor at the Internal IT Help Desk who writes for a non-technical employee	1
Action	List every fact and step, rewrite in simple words in the same order, check nothing was added or dropped, one next step	1
Context	The technical answer is the only source	1
Expectation	Language, tone, maximum words and a fixed four-part format with a CHECK line	1
Input and rules	INPUT between ---; keep every fact exactly, no added steps, remove promises and blame	1
Total		5 / 5

Test 2 · Template quality

Criterion	Evidence	Score
Name and purpose	Name and one-line purpose at the top of the file	1
Variables	4 variables with allowed values and defaults	1
Fixed safety rules	No added facts, no promises, no sensitive-data requests, remove blame, no decisions	1
Tested	Fill A (English, Friendly), Fill B (Arabic, Formal), edge case (empty TONE and MAX_WORDS; the answer contains a promise)	1
Safe examples	Only invented, masked data	1
Owner and version	Abdullah · v1 · 2026_10_15	1
Total		6 / 6

Test 3 · Output quality

Criterion	Evidence	Score
Facts supported and current	Every fact in the output comes from the technical answer	1
Numbers, dates and names exact	"5" failed attempts, self-service portal, all devices and new password kept exactly	1
No promises or actions	None added by the rewrite	1
No sensitive data repeated	No personal data in the input or the output	1
Complete and natural	All three steps are kept, a next step is present, the wording reads naturally (44 words)	1
Total		5 / 5

Run record (replace with your own screenshot of the run and the output)

```
VALUES: LANGUAGE=English; TONE=Friendly; MAX_WORDS=60
TECH_ANSWER: Your account is locked after 5 failed login attempts. The lock is released only by resetting the password through
the self-service portal. After the reset, sign out of all devices and sign in again with the new password.
--- OUTPUT ---
Greeting: Hello, thanks for your message!
Plain answer: Your account was locked after 5 failed sign-in attempts. The only way to unlock it is to reset your password in
the self-service portal. Then sign out of all your devices.
Next step: Please sign in again with your new password.
Closing: Best regards, IT Help Desk
CHECK: Kept exactly: 5 failed attempts · self-service portal · all devices · new password · Simplified: "lock is released" to
"unlock"; "login" to "sign-in" · Removed: nothing · Added: nothing · Dropped: nothing
```

Other runs of Test 2

Fill B (Arabic, Formal, VPN client answer): all facts kept (latest version, company software portal, restart the device). Edge case (empty TONE and MAX_WORDS, answer starts with "We will fix it by tomorrow for sure"): defaults used, the promise was removed and listed under Removed in the CHECK line. Both outputs are in the template file.

Notes

All three tests reached the full score on the run recorded above. No fix needed. The run record is the text of the values and of the output I got when I ran the template. Results differ between runs and tools, so the template must be re-run and re-scored in the approved AI tool before use. Arabic outputs need a native reader.
Status: Approved

Template 5 of 5 · IT-Draft-Notice-v1_2026_10_15

Planned maintenance notice: Write a short notice about planned maintenance with the date, the time and what employees should do.

Sample input (invented, masked)

[SERVICE_NAME]: email service · [MAINT_WINDOW]: Thursday, 13:00 to 14:00 · [EMPLOYEE_ACTION]: Save your work and log out before 13:00. [LANGUAGE]: English · [TONE]: Neutral · [MAX_WORDS]: 50 · [DESK_FACTS]: IT-Facts-v1_2026_10_15

Test 1 · Prompt quality

Criterion	Evidence	Score
Role	Polite IT help desk agent writing to employees who may not be technical	1
Action	Check the three required inputs, state service, day and time as given, state the action, write the CHECK line	1
Context	[DESK_FACTS] block; the service, the maintenance window and the action are given in INPUT	1
Expectation	Language, tone, maximum words and a fixed format: Greeting, What is happening, What to do, Closing	1
Input and rules	INPUT between ---; day and time exactly as given, no end time or promise, ask if an input is missing	1
Total		5 / 5

Test 2 · Template quality

Criterion	Evidence	Score
Name and purpose	Name and one-line purpose at the top of the file	1
Variables	7 variables with allowed values, defaults and what to do if missing	1
Fixed safety rules	Day and time exactly as given, no promises, no added facts, no sensitive-data requests	1
Tested	Fill A (English, Neutral), Fill B (Arabic, Friendly), edge case ([EMPLOYEE_ACTION] missing: the template asks for it)	1
Safe examples	Only invented, masked data	1
Owner and version	Abdullah · v1 · 2026_10_15	1
Total		6 / 6

Test 3 · Output quality

Criterion	Evidence	Score
Facts supported and current	Service, day, time and action all come from the input; nothing else is claimed	1
Numbers, dates and names exact	"Thursday" and "13:00 to 14:00" exactly as given	1
No promises or actions	No end-of-work promise, no action claimed	1
No sensitive data repeated	No personal data in the input or the notice	1
Complete and natural	Service, day, time and what to do are all present (37 words)	1
Total		5 / 5

Run record (replace with your own screenshot of the run and the output)

```
VALUES: LANGUAGE=English; TONE=Neutral; MAX_WORDS=50; DESK_FACTS=IT-Facts-v1_2026_10_15
SERVICE_NAME: email service | MAINT_WINDOW: Thursday, 13:00 to 14:00 | EMPLOYEE_ACTION: Save your work and log out before
13:00.
--- OUTPUT ---
Greeting: Hello, this is a notice from the IT Help Desk.
What is happening: Planned maintenance on the email service is scheduled for Thursday, 13:00 to 14:00.
What to do: Please save your work and log out before 13:00.
Closing: Best regards, IT Help Desk
CHECK: Day and time as given: Thursday, 13:00 to 14:00 · Action as given: Save your work and log out before 13:00.
```

Other runs of Test 2

Fill B (Arabic, Friendly, VPN service, Sunday 07:30 to 08:30): Arabic notice with the numbers written as given. Edge case (EMPLOYEE_ACTION empty): the template stopped and asked for it instead of guessing. Both outputs are in the template file.

Notes

All three tests reached the full score on the run recorded above. No fix needed. The run record is the text of the values and of the output I got when I ran the template. Results differ between runs and tools, so the template must be re-run and re-scored in the approved AI tool before use. Arabic outputs need a native reader.
